Github

## EXPERIENCE

### Bloc

#### UX Design Apprentice | Jan 2019 – Sept 2019

- Completed 600+ hours of UX and UI design and frontend development work under mentorship of an accomplished UX professional.
- Conducted user research to create personas, market research, user stories & flows, site maps, and wireframes in varying fidelities.
- Developed brand identities from brand logo to typography, color palette, and style guide.
- Created and tested prototypes and iterated based on feedback.
- Designed visuals with UI patterns to create simple and elegant designs.

### Ernst & Young, LLP

#### Assurance Senior | Aug 2015 – Apr 2019

Clients: Apple, Arista Networks, Guess?, NGM Bio (IPO)

- Led meetings with business process owners to understand process pain points and weaknesses. Through these interviews, I was able to evaluate the adequacy of these processes and brainstorm process improvement protocol.
- Implemented analytical procedures for a global retailer, to identify trends and outliers in the Company's sales transactions. This is expected to reduce 60 audit hours and improve audit evidence in year 2.
- Worked closely with the VP of Finance and Controller of a biopharmaceutical company to understand their revenue and clinical trial process, and to review financial statements to complete a successful initial public offering (IPO).

## EDUCATION

### University of California, Riverside

BS, Business Administration, Cum Laude | Graduated 2015
