## EDUCATION

### University of California, Riverside

BS, Business Administration, Cum Laude | Graduated 2015

## EXPERIENCE

### Bloc

UX Design Apprentice | Jan 2019 – Sept 2019

- Completed 600+ hours of UX and UI design and frontend development work under mentorship of an accomplished UX professional.
- Conducted user research to create personas, market research, user stories & flows, site maps, and wireframes in varying fidelities.
- Developed brand identities from brand logo to typography, color palette, and style guide.
- Created and tested prototypes and iterated based on feedback.
- Designed visuals with UI patterns to create simple and elegant designs.

### Ernst & Young, LLP

Assurance Senior | Aug 2015 – Apr 2019

Clients: Apple, Arista Networks, Guess?, NGM Bio (IPO)

- Implemented analytical procedures for a global retailer, including the mapping of sales transaction data and the design of analytical procedures. This is expected to reduce 60 audit hours and improve audit evidence in year 2.
- Worked closely with the VP of Finance and Controller of a biopharmaceutical company to understand their revenue and clinical trial process, and to review financial statements to complete a successful initial public offering (IPO).
- Led multiple meetings with business process owners understand pain points and evaluate risk for fraud and error. This led to multiple clean reviews by internal board and external regulatory board (PCAOB) reviews.
